

Steam 18 bar 210°C red BS5342**1/1**

Description and application: Industrial hose manufactured for the delivery of saturated steam up to 210°C (superheated steam up to 232°C)
Design with two layer of braided steel wire in accordance with BS5342-2A standard.

Composition: Inner tube: Black EPDM rubber.
Reinforcement: Braided steel wire.
Cover: EPDM red rubber resistance to temperature, abrasion and atmospheric agents. Micro-perforated cover.

Working temperature: -40°C +210°C

Safety factor: 10:1
