

Hot Water Cleaning 120°C Blue FDA

Description and application: Industrial hose manufactured for the delivery of hot water up to 120° C in the food industry. Designed with FDA compliant materials, for cleaning and washdown operations. Suitable for low concentration chemical fluids.

Composition: Inner tube FDA white EPDM
Reinforcement: High-tensile strength synthetic textile mesh
Cover: Smooth blue EPDM rubber, resistant to heat, abrasion and atmospheric agents.

Working temperature: -35°C +120°C

Safety factor: 3:1
