

Indicative capacity: 3/16" up to 2"
Hose connection on S.S. manifold: 3/8" BSP low pressure; 1/4" high pressure
Minimum compressed air input: 7 bar with min air flow 1000 l/min
Standard fluid used for tests: water
pressure lines 2 (high pressure- low pressure)
Test area: 780x1500x100-400 mm
220V for safety control
Weight 270 Kg
Dimensions: 800x2000x1110 mm
Gross weight 335 Kg
Noise Level: 60-72 dB
IP54
